Design — Estimate — Install — Setup

Built strong, built smart.

LightSmart uses controlled durable, high quality products. Most rated for 50,000 hrs or 15.7 years of managed use. Lights are programmable, low voltage, and very colorful. The Smart App can control your lights and other devices, schedule on/off times, and change scenes all from your phone. Wherever you are, you'll have access to your system.

Curb-Appeal value

Your place is "smarter" and more valuable with Smartlights. Your investment is well protected as you utilize the beauty of light and color. Soft accent lighting, Holiday lights, GameDay, or Party themes. This is next level Curb-appeal! A Smart home is a buying feature.

LED Upgrades.

Lightsmart does Holiday lights, landscape lights, and indoor/outdoor upgrades. We upgrade floodlights, security lights, recessed lighting, and fixtures with LED options. Bulbs are expensive, electricity is expensive, and your replacing bulbs too often. It's time to upgrade. Quick and easy! Just give us a call.

Feel secure & safe

One thing a criminal hates, lights! With motion detection, presence detection, window and door sensors, you can have your lights activate instantly warning you and the intruder. This place is smart, back on up!
